

DALMAT ADEMI

Junior Full-Stack Developer | React / Next.js | PHP / MySQL
| Networking

Vushtrri / Prishtina, Kosovo | dalmat.repair@gmail.com |
github.com/lowlandrepair | dalmati.netlify.app

Full-stack developer focused on modern web apps, clean UI systems, and practical backend design. Public work includes 22 GitHub repositories across civic tools, auction workflows, news/booking interfaces, task sequencing, and interactive gameplay.

SELECTED EXPERIENCE & PROJECTS

Co-Founder & Lead Software Architect | Autorizz / AutoMarket Pro | Vushtrri / Prishtina Jan 2026 - Present

- Designed a premium automotive marketplace concept for fast vehicle discovery, listing management, and clean buyer-facing browsing.
- Planned Node.js/Express and MySQL architecture for vehicle specs, users, listings, history records, and multi-tier filtering.

Lead Full-Stack Developer | Independent / CityCare Project | Prishtina, Kosovo Dec 2025 - Present

- Architected a citizen-reporting platform using Next.js, React, PHP, and MySQL for service requests, issue tracking, and community updates.
- Built a decoupled frontend/backend direction with secure state patterns, schema planning, query reduction, and indexing decisions.

Network Engineer / Administrator | Independent Projects | Vushtrri / Prishtina Feb 2026 - Present

- Designed Cisco Packet Tracer topologies covering VLAN routing, DHCP pools, gateways, cross-router communication, subnet planning, and troubleshooting.

PUBLIC PROJECT HIGHLIGHTS

- Computer Auction: Flask/SQLite app with authentication, listings, watchlists, bidding logic, search, reviews, and validation.
- Kosova City Care, Kosova Observer, Hotel Lowland, Task Manager, and Minesweeper show civic tools, editorial UI, booking flows, algorithms, and gameplay.

TECHNICAL SKILLS

Frontend	Next.js, React, TypeScript, JavaScript, responsive UI/UX, SASS/SCSS
Backend	Node.js/Express, PHP, Laravel, MySQL, REST APIs, XAMPP
Systems	C++, Python, hardware troubleshooting, system-level programming
Network	Cisco Packet Tracer, VLANs, routing, DHCP pools, multi-subnet design
Workflow	Git/GitHub, architecture, database design, indexing, project planning

EDUCATION & LANGUAGES

SHMT Lutfi Musiqi Sep 2024 - Jul 2027

High School Diploma, Teknik i Informatikes

Languages: Albanian - native/bilingual | English - native/bilingual
